

DECKING

We stock and supply a huge range of [seasoned decking](#) and accessories to suit any purpose. For this reason together with our competitive prices, experience and service we have become the choice of many local landscaping and decking firms. Our [decking](#)

page provides further details on some of the decking designs that we stock as well as images of decks completed using decking materials supplied by ourselves.

We can provide a planning service if required to provide you with a guide as to how much decking you will need for your project.
